AVS manual bundling machine

With our bundling machines you generate a surplus value to your products.

There is a constant rise in the demand for packed vegetables. That is why we have developed 2 packing machines, namely the AVS manual and the AVS automatic bundling machine.

With the help of adhesive tape you bundle leek, celery, rhubarb or other vegetables smoothly.

Product description

- ▶ A manual bundling machine with 2 tape heads.
 - ▶ Driven electrically (220 volt)
 - ▶ zeer laag energieverbruik (minder dan 4A)
 - ▶ Width of the adhesive tape up to 25mm.
 - ▶ Distance between the 2 adhesive tapes is adjustable.
 - ▶ Maintenance is simple.
 - ▶ Solid own construction, build to last.
- ▶ Option: there will also be a good sticking result when bundling a wet product, thanks to heated tape heads.
